PG 10.0 OIL SKIMMERS

ARBO BELT OIL SKIMMERS

Your ARBO oil-skimmer does the dirty job!

- Light weight
- Easy to move around
- Low maintenance
- Controllable cost

The model LI-80 oil skimmer is a well-established and easy to install device for reducing pollution whilst at the same time recovering valuable materials, oils and fats from the surface of water and other liquids.

As all “wetted” parts are made of plastic, the use of this skimmer is not restricted to water only. Also alkaline liquids or acids can be treated successfully.

Floating oil adheres to an endless moving belt and is lifted vertically on the belt and skimmed of by a wiper tube for discharge to suitable storage vessels.

As the belt is only 80 mm. wide, the unit takes little space. The skimmer can therefore be mounted permanently on the bath and can clean continuously, also during production hours.

The belt is kept under tension by a free running drum without bearings.

As there are no mechanical parts in the liquid, breakdowns due to filthiness are quite impossible.

PRODUCT RANGE

TECHNICAL DETAILS

Easy to remove endless belt	80mm wide
Immersible depth below mounting surface	200-3000mm
Capacity at oil SAE10	0-4 l/h
Maximum operating temperature	70 °C

TECHNICAL DETAILS MOTORS

Standard	Maintenance free drive
Power	36 Watt
Duty	Continue duty: S1
Voltage	220-240 V/ 1 Ph/ 50/60Hz
Nominal current	0,36 A
Speed	2-10 min-1 via PCB with potmeter
Protection class	IP55 (IEC 34-5/ NEN-EN 60034-5)
Insulation class	“F” (ΔT=80 °C)
Maximale relative vochtigheid	< 95%

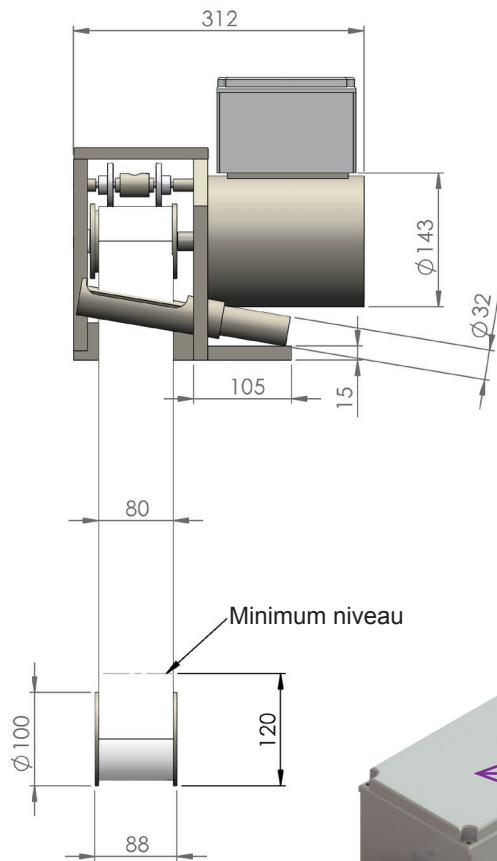

CONSTRUCTION

MATERIALS	ABBREVIATION	T MIN. °C	T MAX. °C
Skimmer parts of Polypropylene	PP	0	80
White skimmer belt for acids	W	0	70
Green skimmer belt for alkaline	G	0	70
